STREET LIGHTING RESOLUTION

NO. 197-87

SOUTH MONROE STREET

The Board of Public Works and Safety of the City of Fort Wayne, Indiana, having been petitioned by certain property owners of the 3600-3800 blocks of South Monroe Street, hereby deems it necessary to install an underground ornamental lighting system for the 3600-3800 blocks of South Monroe Street, all in accordance with the plans and specifications on file in the office of the Board of Public Works and Safety of said City and such lighting is now ordered. This improvement is ordered pursuant to the applicable Indiana Statutes.

A maximum cost of \$3.27 per lineal foot of property shall be assessed upon real estate abutting the above described street. The balance of the project cost shall be assessed upon the City of Fort Wayne, Indiana. Assessments, if deferred, are to be paid in ten (10) equal installments, with interest at nine (9) percent per annum and shall be financed by the Barrett Law revolving improvement fund as provided for in the Indiana Statutes. All proceedings and any work done in said lighting assessment of property and collection of assessments shall be as provided for in said above entitled acts and all amendments thereto and supplemental thereof.

Adopted, this 18<sup>th</sup> day of March 1987.

Board of Public Works and Safety

## TO ALL CONTRACTORS WITHIN THE CITY LIMITS OF FORT WAYNE

The City of Fort Wayne Street Department has advised the Fort Wayne Board of Public Works and Safety that the third trick Street Department crews are spending approximately 50% of their time re-erecting barricades placed on various projects throughout the City. This responsibility of maintaining construction signs, barricades, etc., belongs entirely with the contractor.

Please refer to the attached copy of the City of Fort Wayne application for permit to cut into Fort Wayne streets, whereby the contractor is responsible to erect and maintain Traffic Devices for Highway Construction and Maintenance Operations; Indiana State Highway Commission --- date, 1985.

Maintaining these signs shall include necessary stabilizing of the signs whether this be accomplished by embedding the legs of the sign in the street or using sandbags as ballast on the lower crossarms or legs of the signs. Other procedures of installing ballast on signs may be devised by the contractor, however, under no circumstances, shall sandbag ballast be placed on the top of barricades. This has been determined as a hazard to the driving public. Should one of the signs be hit by a car, the sandbag could very well fly through the windshield of the car causing serious injury.

Effective January 1, 1987, a form will be included in bid documents requiring contractor to list name (s) and telephone number (s) of those responsible for maintaining barricades at all hours for each project.

If, after notification by City, contractor's representative does not immediately correct barricade problem and City must perform this work, a charge will be made against contractor.
